

medisun® Balneo 2000

Professional and economic PUVA- and balneo-foil-therapy

Equipment:

- Bathtub with outside control panel
- Impact- and acid-resistant GPR-material
- Anatomically shaped inside tub body with adequate free moving space
- 4 nonslip feet, compensating broken grounds
- Low-wearing special heating system, installed inside of the bathtub body, 230 V/16 A
- Thermostatic bath- and shower-mixer, including scald protection
- All fittings are installed on the side, not to the upper edge. As a result, a better handling of the foil is given
- Thermostat with temperature control
- Low water indicator (prevents heater operation at low water level)
- Back- and arm rests
- Capacity 250 litres
- Shaped head molding

Advantages of foil-therapy:

- Water saving (only one filling per day)
- Power savings
- Personnel cost savings
- Only 5 litres of brine- or PUVA-lotion needed
- Conduct of flavour-, herbs-, oil baths a.s.o.
- Easy installation
- All fittings already installed
- Absolutely hygienic
- CE-mark according to the Medical Device Directive
- Short amortization period
